

Item 5. Research Funding Opportunities

Education and Outreach Workgroup

January 24, 2019

Water Research Foundation

- Merged research foundation has solicited and unsolicited research programs
 - Emerging Opportunities Program for time-critical, high priority issues; 3-12 month completion, \$25,000 -\$200,000
 - Tailored Collaboration Program to match and leverage funds from group of utilities on regional research projects
- Source Water Protection – Land Use and Water Quality Program Track
- Funded by subscribers-municipal and private water, wastewater, and stormwater service providers and supporting companies

Private Non-profit Foundations

- Penn Foundation – greater Philadelphia; protecting Delaware River Watershed
- Rockefeller Foundation - Resilient Cities initiative; tackling acute and chronic stressors
- Trust for Public Land – Climate-Smart Cities program
- Grants tied to Climate Resilience & Sustainability (some outside US)

Public Agency Research Partners ... in Source Water Protection

- Environmental Protection Agency
- US Department of Agriculture
- NASA – looking for uses of their data sets

Other Potential Partners:

ASDWA –
Source Water
Collaborative

- Roads & Drinking Water :
- Intersection of Roads and Drinking Water;
Opportunities for Collaboration Between State
Programs
